NEWSPAPERARCHIVE®

PORTLAND, WEDNESDAY, MARCH 16, 1897, "PRISONERS OF POVERTY"

Mirs. Helen Campbell, well known for her ceaseless and intelligent efforts to ameliorate the condition of poor women in New York, has written and published a series of articles under the title of "Prisoners of Poverty," in which the condition of women wage-workers, their trades and their lives, the trades and their lives, the trades and their lives. trades and their lives, the treated in a spirit of sympathetic intelligence and pure phtianthropy. The writer deals in one of her articles with the tendency of young women to crowd into stores and shope of every description, and comments on the fact that the mass prefer any cit in wages or any form of privations which have rewages or any form of privation to what they re-gard as almost final degradation—household service Hather than accept this, they will take service Hather than accept this, they will take the most invager wages at the counter, where they must be on duty through long hours and yet must keep them-dies, out of that scanty weges in room, food and clothing. And the clothing must always be neat an i becoming,

whatever privatens it may require
To find why women acc pt this life insteal of
the more comfortable me of household service
is to get the key to a large social problem. Mee Campbell explains it he entine that little chem girl as a class, domen; rates the fact that not with her but with the class above her through accident of birth or for une lies the real respon-In explanation of this Mrs Campbel says of the shop-girl "She knows far better what constitutes the life of the rich than the rich ever know of the life of the poor From her post behind the counter the shop-girl examines every detail of coetume, every air and grace of these women whom she despuse, even when longing most to be one of them. She in the where she can, and her chesp shee has its French heel, her neck its tin dog-collar. Gilt ringe and bracelets and bangles, frizzes and bangs, and cheap trimmings of every order swal-low up her earnings. The indication is often more effective than the real, and the girl knows i. She aspires to a manicure set, to an opera glass, to anything that will simulate the life daily more passionately desired, and it is small wonder that when sadden temptation comes and or opena into that land where luxury is at east nearer, she falls an easy victim."

With the true sympathy and benevolence of a large-hearted worker, Mrs. Campbell urges women of wealth and elsure to come down to those who cannot come up to them. "Once at least," abe says, "put yourselves in the worker place, if it be but for half an hour, and think their thought and live their starved and dreary lives. Then ask what work must be done to alter conditions, to kill false ideals, and wo that no day on earth shall pass that has not held some effort in word or deed to make true living more possible for every child of man '

The wool growers of the Eastare never weary of trying to get the tariff rates of 1867 on woon restored, although that wool tariff was so absurd that the Inther of our present protective policy Scuator Morrill, was the first to move for its reduction Oblo has ever since been bellow-ing for the restoration of the wool farisf of 1867, wool growers stupidly believing that their interests require a high duty on wool. This wool tariff of 1807 was reduced by a protectionlet committee, who pointed out that the older wool growing states have not suffered from the competition of foreign wools, but of the domes-tic wools grown on the cheaper lands and in climate of Texas and the Pacific coast The old weel prowing states of the East have no better remedy than to open the American market to wools that can not be grown here but with which their own can be profitably mixed. This is what Seanter M proand other strong protec tonists test the grant-ling Ohio wool growers. Foreign wools of cer-tain grades meet a part of the popular demand. for wool which American wools do not, so if fariff duties increase the price of foreign wools so that they camed be used profitably the de-mand is not transferred to home wools, it ceases. This is what Senator Merrill, an old protectionist, has for several years tried to beat into the heade of the Oh o wool-growers. Low duties on certain grades of wool would be an advantage to both the wool-grower and in-manufacturer, because the only foreign wools we want are those that are not and caunot be grown here, and yet are those with whith our own can be printingly mixed. This is the pro-tection argument for free wool as expressed by a protection senator from a famous sheep grow

REFORM ON THE RAIL. The terrible accident on the Boston & Providence railroad might have easily bec other holocaust like that of Woodstock bridge Lad it not been for the happy chance that a free engine was within a 'ew minutes' call, and coming to the rescue put out the flames. Within another year all the leading railroads in the country will be equipped with heat and light giving appara us that w.ll make death by fi o opon the rall impossible. At the last session of congress the house of representatives passed a recolution requesting the ascretary of the treasthen received v he passe and drawings, before the according at some like are all before the day of her studied in the property of the day of her studied in the set of the day o upder at vericinal ances on little the shall be used no oil file a through little at the shall. The updet on the losin Privides o R. B. scenes to lare result i frouth breating t one of the troi girders to the bridge as vi the case in that fentful catash upon of the fall of the railway bridge ht Dundee, spotland, a few years

Some two or three years ago one S B Pattenill was employed for a time as a writer upon THE OREGONIAN. It was found quite difficult THE CERCONIAN. It was found quite difficult to keep him wi hin the lines of the paper a general principles and policy, and upon any relexation of vigilance there was prefty sure to be some departure, through his work, from the paper's generalicourse. There was no effort to prevent this by vigilance, which did not always su coed, and to get along with it good naturedly, which sometimes was continuous. 15, which sometimes was quite as unsatisfactory, that last, finding it hop-less, and disgusted moreover, with his plagfaristic habits, THE OREmoreover, with his plagianistic habits, THE UHE-GOVIAN was glid to be rid of Mr Pettengil. At that time he had no fixed principles, and may have none now He was then in a transition sinte from republicanism to democracy, ret of equipment of the properties of the an honorafile man, and oze who would keep a trust. He did not, how-ever, keep his trust with this paper, but at times, particularly in the absence of the editor, rayed the paper into expressions inconsistent with its well-known position on many subjects The fault of the proprietors was the amiable one of endeavoring to get a eng with him at all, since neither his abilities nor his character deserved their consideration Immediately after he left the paper he began o assert that it was an habituat plagmanat, and caused to be repro an babitusi plaguarst, and caused to be reproduced elsewhere, in proof of the charge, articles and extracts which be hat himself "cribber" from other papers and published in The Ors. Generally, when he could be succeed in the paper inconsistent with what he himself working the paper inconsistent with what he himself work in it, he causes to be reproduced elsewhere his own articless published in these columns, as proof that The Dergonian's most critical time. From the 16th of June to Confederace are variable and unitrustworthy. Ordinarily we should say that this was fit work of careful and sneak, in the present case it is faction were beginning to come out of their faction were beginning to come out of their for a struct and sueak, in the present case it is enough to say that it is characteristic of Mr. S. After that date the coppended coyote stopped.

WHO SHALL WASH FOR REVER

The Rev. Dr. T. DaW tt Ta'mage and twenty ministers of various denominations answer the refusal of the Chicago clergy to whitewash Beecher by signing a full certificate o' moral health for the great preacher. The health officer, Dr. Talmage, who presided over the autopay, is worthy of his flice. He was also tried before his presbytery for I, ing. slander and maller us prevarication, and when the testimony against him became overwhe sing as that his lictus prevancation, and when the testimony against him became overwhe ming, so that his conviction was quite probable, Talmage arose and wept. Then his counsel, Rev. Dr. Spear, and Hathaway, a principal witness, arbee and wept also, and all the admirers of the accused produced their pocket-handkerchiefs and dissolved into tears. The moderator showed signs of a strong desure to play the part of Jch Trottor to the assembly. The Rev. Dr Henry J Van Dyke arose, and with a gravity and strinness that befittingly rebuked this bold trick to dodge in ressligation, reminded the presbytery hit afir easily atom, reminded the presbytery but af-ter one precipier had testified under on h that another presbyter had testified under on h that stories about him, and the second presbyter had declared in some that the first propheries testiclared in court that the first presbyter : testimony was the biggest pack of fulsehoods he had ever heard, it was too lite then to take the mat-ter out of the hands of the presbytery by a pri-vate making up cut of court, introduced by a

vate making up cut or cont, introduced by a disgusting plending of the "cri-baby a it" by Dr. Taimage Taimage said, "I wish at this point to offer Brother Hatheway the right band of fellowship and then Tairage threaded his way down the also to where Hathaway was sitting and extended his hand, and then there was another others of fears from Tairage and he also outburst of fear from Talmage and his clan that was copious shough to have furnished water-power to an ordinary sawmiil. Rev. Dr. Howard Croeby arose and said: "The charge of falsehood against Dr. Talmage can not be put down by the personal settlement of the two men." and read from Hathaway's test morr, where he (Hathaway) averred that Talmage had eald that Dr. Van Dyke was a notorious liar, and that he (Taimage) did not want to see Dr Van Dyke before the day of judgment, and hreatened to torn on Hathaway and kill him if he took be colored. hreatened to torn on Hathaway and kill him if be took his grievance to the Presbytery. The Bev. Dr. Croeby and the Rev. Dr Vun If it insisted that a formal charge of falshood against Dr. Taimage could not be disposed of by a son imental trick, for Taimage could not be risared until Hathaway confessed that he had sworn to what was not true. Hathaway declined to take anything back, but with a first burst is the second of anything back, but with a fresh burst of tears anything back, but with a fresh burst of tears said he would accept Taimage's right hand of fellowship, and Taimage said that while Hathn way had not sworn to the truth he would give him his hand and wipe out the state. Then there was another attempt to turn the church edifice into a water lot by the Rev. Dr. Job Tro ter Taimage. Then Rev. Dr. Van Dyke and Rev. Dr. Crosby retured, after indignantly pro-testing against the moral validity of a white-washing verdict obtained by such evasive and

dis ngennous proceedings.

This is the plain tale of how Rev Dr. Talmage met the square issue of his trul for falseand other conduct antecoming a Christian minister. The natural things for Dr. Tal unge, who Lincelf stands in deep need of vindication, was to estents ionaly offer to furnish the public with a certificate that Reches lived and died in a state of absolute, unbroken and unblombed moral and spiri val health. Problems of the control o ably be did according to the Talmage cone, but the situation recalls Cole idge's lines

The river Roine, as is well known, le gods above the question mine Is what shall wash the river Rhine?

falmage has whitewashed Beecher, bu now that Beecher is dead who is there left to gild

THE FIRE IN THE REAR Judge Tourgee, in the January number of the North Courge, in the January number of the North American Remark these to explan the length of the war for the Union by saying that "the burthen of the war at the front was hardly greater than that of disstilisfaction at the rear." He class the fact that of the four Northern men living at the cutbreak of he war, who had occ living at the cutbreak of he war, who had occupied the presidential chair, "not one ter. lered
his support to the national cause or offered sympathy or patriotic counsel to Lincoln." That
ex-President Tyler, a Virginian, should have
egone into the rebellion and died a mem-ar of
the Confederate congress was to be expected,
but that hiartin Van Buren, the free soil candidate in 1848, should have been cold was re-narkable. Ex-President Pierce went so far as to
write Jeff Davis January to, 1860. "The fighting
will not be along Mason and Dixon's line will not be along Mason and Dixon's line merely it will be in our own borders, on our own streets, and if we ever reach the arbitrament of arms the republicans will have occupation enough at home."

Fierce refused to deporate his bouse when Itch-Pierce refused to decorate his house when Richmond fell or to display mourning when Lincoln was murdered. Senator Lane, of Oregon, warned the U. S senate that if Lincoln dared to coerce South Carolian "the Northern democracy wid not march with him, but wou d meet him there and repel him and his forces, the republican party will have war enough at home." Frando Wood proposed the secession of New York city and predicted grass would grow u its streats if Lincoln's war policy prevailed. Bught, Fitch, Hendeicks, Voorhees and Holman in Indiana, Peudicton, Vallaudigham and Lot Z in one cars and of steamboats and of any other persons whom be may that especially captulated very confidence of steamboats and of any other persons whom be may that especially captulated very confidence of giving caseful information up as the audit of gi parama which the same a need in the same and any same any ing the same, a needly of heating the form read of constructing the intersorate to private lass of property and life time? The section of the treating to these matrix of the treating to these matrix and add and Morrison originally Unions of lets, the original to the more than 12 to the section of the treating to the matrix the evolution rether him to the more way cold to the cause. Several of the man we have send were common than the received with the more and the treating and for the New cut hereby the representation of the restriction of the section of we grant ma we did no refuse to believe that a least a un ion of ittelligent Northern men, of the proper age for military service, were bethat I the sing succeed Probably half of hem would have the lines armies to the finck at the first more the opportunity. The strength would have the later armies in the firsh at he first countle oper tunity. The strength of this notice were returned did not lee, however, simply in is numbers it was very dangetons and very influential, because it was above the average intelligence of the majority who fought or at least prayed for the Union. The Union had worn out is we'come with a large class at the North Everett, an old dough face, come back to freedom's cause when the word was war, but a far ublest and batter man with back war, but a far abler and better man, who had never been a dough face, Robert C W nthrop, was silent, not because he sympathized with se was sient, not because no sympathized with se-cession, but because, like Hawthorns, he felt a natural horror at the thought of a civil war be-tween men of the same blood and heroic trad-tions. This sentiment of hostility to the war, whether it was bottomed on party hate and distrust, or bottomed on a nobler feeling of disgust for war even in a just cause, formed in a lits for war even in a just cause, formed in a lits ramifications a very formidable faction, no so much because of anything it had been able to do as because of what it might easily do if any great disaster overtook the Union arms. It was this apprehension as to what this hostile faction might do in case of general defeat, that made Luncoln say so fervently to every general who had command of the Army of the Potomac Be not too note, but if possible give us victory

speedily." Lincoln knew that under every new disaster the anti-war sentiment behind the armies was hardening and increasing every cay, until at last it would break forth like a voic unough the first order of the like a voic unough the state of the like a voic unough the like a voic

and place the Union armies between two fires.
Much has been written about Gettyeburg as

barking, and after Sheridan's vectors of Cedar Creek, and when Sherman reached Savanuch and commenced his march through the Caro-linas, the relining pack not only did not bark but took to their holes and stayed there for twenty years until Cleveland was elected, when the were whistled out one by one and sent to Europe to unbold atroad the flag they tried twenty years ago to upset at home. There is no doubt that this sincere, able, intelligent, intellectual anti-war faction at the North was a great mil-

stone on the neck of Lincoln and its influence section on the neck of Lincoln and its influence went far to equalize the disparity of mullary resources between North and South The negro could be trusted to do the agricultural work of the South, the Southern system of conscription bore better fruit than the Northern system of bore better fruit than the Northern system of drafting with the privilege of furnishing a sob stitute or paying commutation. The South had small foreign population and her con-cription gave her better fighting bled than the Union armies obtained the last year of the war by the draft and the Duroty and substitute system. That availables when the Confederate armies man draft and the bounty and substitute system Tout explains why the Confederate armost main tained such admirable discipline and valor even to the last hour of Lee's retreat. The best blood of the North had been inright spent in the first three pears, and its place was taken in loof by very inferior material. The South accepted no substitutes, no commutation money they wanted men and they took them from better fighting slock than our government had to select from sorther than our government had to select from

men and they took from from better figuring stock than our government bad to select from in 1804. The South, too, had no Union faction large enough to dare bite it in the batts or seriously threaten it from the rear, as the draft most of July 1863 did Lincoln. This powerful note of July 1863 did Lincoln. This powerful pack of copperhead coyotes was protably quite small just after Sumter, but the disastrous battle summer of 1852 multiplied its numbers. The army began right in February, 1852, when Breel and Grant smashed the line from Columbus to Cumberland Gap, went Shiloh and occupled Corinth, Miss., by the 1st of June, 1852. The navy began right when Farragut took New Orleans and pushed up to Vikaburg, which he reached June 28, 1862. A bright boy can see to-doy that Halleck, who occupied Corinth, Miss., June I, onith to have had an army store Miss., June I, ought to have had an army before Vicksburg the last week in June to co-operate with Farragut the moment he arrived. But Halleck, despising Ruell's and Grant's remonstrances, dispersed his army, and from that day there were no brains in the conduct of the war until Grant in 23th took command. The enemy blundered badly enough, but we did so much worse that in our judgment the copperheade, who had fattened on disaster would have par alized Lincoln's efforts for victory had not Grant taken Vickeburg. Repalsed from Vickeburg, estigatory would have been to us a very small plaster for a very large wound, and another year of the "balky in litary team" pull-ing in different ways east and west, would have made the people prompt to vote in November, 1864, the whiteleather ticket of the Vallandgham democracy, bearing the tegend that "War is a failure." The strength of this anti-war faction was very great, and came so daugorously rear success that probably at no time in the history of the relative the Carlotte. the history of the whole war was the Confeder-

Mr. Henry George, addressing his followers, says "You call this your country, and yet you cannot call one square not your own Lund cannot call one square hoth your own Lind along Broadway, or anywhere on Manhattan island, is indeed reckoned pretty high, even by the square inch; but land out this way anybody can get in tracto of 180 acrea. Government gives it away. If Mr George's followers wou'd cally see it, there would be sense in thicking about the square acres they may get out here, rather than listening to herangues about the square inches they can't get in the metropo'ls.

ate cause so threatening as it was during the week of the battle of Cold Harbor. That is

the anti-war faction was strongest then, and grew visibly every day until Sherman won

One thing is to be said of the results of faud-grabbing under the swamp land laws, to-wit It, as Agent shackleford alleges, and as is prob-ably true, a very large proportion of the lands claimed under the swamp land acts are not swampy at all, but "consist of sagebrush plains and law rock hilis," the claimants who have to jay \$\frac{3}{2}\$ ian acre for then it will hardly get the worth of their money. In that case it will proba worth of their money. In that case it will probably be found that Hen Owen has played it on his assigns in a way they despise.

### NEWS OF THE NORTHWEST.

OREGON. OREGON.
At the annual school meeting held at Albany Mondey Jchn Foelay was elected director and C. G. Burkhart eleck. A 5-mil. tax was voted, Mionday Mr. triesy, the treasurer of Marion county, turned over to County C erk Chapman at Salem canceled warrants to the amount of \$758 71.

C. G. Hawlings, of Portland, has been ap-pointed operator in the Mackay-Bannett Postal felegraph office in Albany. He has taken charge of the office, the former operator, Mr Jester, having accepted a position in the Oregon Pacific's office.

Pacific's office.

At the school election held Minday at Salem (school district No. 24) John G Wright was elected director and David Simpson clerk. Compared with last year's vote there was a falling if in the number of votes poiled. At that time there was something of a contest over both the offices of director and clerk, and 632 votes were cast, against 403 this year.

The memory of the Oregon to California.

The managers of the Oregon & California have made a change in the running division of of the roud, according to the Albury Handle, For merly the running division for the passenger unine was from Fortland to Roseburg, with three engineers, with a kny-off every third day. They have now divided into two divisions, and three engineers, with a lay-off every third day. They have now divided into two divisions, and put on four engineers, running from Populard to Junction and from Junction to Bossburg Get the Wilson of Turner, who was charged with the seduction of Hiss Haker, not only detense to prosecute John Baker, not appears has prompt the country. Several camerymen have been in the city for the past few days, says the Victoria Colon v. making preparations for next season's salmon run. The very favorable turn which prices have taken during the past year has given a new impetus it the business, and the probabilities are that every cannery in the province will be operated this year. The preparations will be large, and should the run turn out good, though there is no reason for expecting that it will be, a larger quantity of isb will be canned in the province than there has ever been before in one season. Thus is a very satisfactory outlook fur this par of the province and it cannot fall to have its good effects upon business in general. There is however, a danger of over-production and of he market being glutted and reduced again to the state from which it is just now recovering.

THE LOWER COLUMBIA Major W. A. Jones, S. engineer, being questioned by an Onego-n reporter yesterday as to the condition of

GREAT LOSS OF STOCK.—A gentleman wh rived here yesterday from Monana gives nost deplorable account of the great loss amon

SAW AND KNIFE.—As the seasons come and go in rapid succession the thousands of shade trees about the city rise higher and higher, while their branches constantly branden, covering sifewalks and encroaching on the street domain. So rapid has the growth been that within the past four or five plans come vigorous efforts have been put forth by the city fathers to meet the case. There is an ordinance in force promiting these frees to be season. in the past rour or two pears some vigorous acforts have been just forth by the city fathers to
meet the case. There is an ordinance in force
meet the case. There is an ordinance in force
requiring these trees to be heat trimmed, but
with these curtailing measures it has been
found to be no small task to adequately stridge
the bight of trunk and expansion of branch and
follage. Like the telephone, te egraph and electric light potes, the question of what shall ultimately be done with our ornamental trees
awaits a estifactory solution. However, as
spring has come, the work of lopping off
branches and cutting away trunks goes ruthlessly forward. The music of the saw, pruning
kuite and clipping shears is heard on almost
every side. In a great many Jance large heaps
of brush are piled up, awaiting the process of
combustion which shall reduce these unsightly
piles to ashes. The use of saw and knife inflict
many cruel scars and make the onco handsome
and symmetrical trees look ragged and stampy
in appearance; but a few seasons growth and
these wounds will be healed and nudden beneath
a profusion of foliage.

ON AN INSPECTION CRUISE, -Several days ago to making an it spection, Capt. Sebree will look after the bruoys generally all over the Sunul waters; besides, selecting suitable sites for range lights. Reservations for light stations will also be selected at rarious points along the "finest body of water in the world." These sites may not be used as stations for some years to come, but the inspector has been instructed by the lighthouse board to set apart certain tracts of government land which will be designated as light station reservations. Capt. Sebre, when he eft here, expected to be absent about two weeks. On his return he will proceed to the several stations in the southern cortion of the district and make the required inspection.

Inspectors' Investigation, - Yesterday the INSPECTORS' INVESTIGATION. — Yeslorday the local board of United States inic colors, Messra, Lotan and Fergason, commenced the official investigation of the recent disaster at Albina to the little launch New York. The only persons present were the two inspectors, Capt. Smith, Engineer George Warle and the coroner. Capt. Smith and Ecgineer Wade both made brief slatements of the facts of the accident as they saw them, all of which was reduced to writing and each statement respectively signed and sworn to by the party making it. There was no new evidence brunght out, the statements made being in effect the same as given at the coroner's inquest. After hearing the evidence the court of inquiry then adjourned until to-day, at which time other witnesses will be examined.

PRIZES AWARDED.—The following compati-

which time other witnesses will be examined.

PRIZES AWADED.—The following competitors are entitled to the prizes offered for building words from the sentence: "Spring opening of the Bouquet." First prize, \$30, Miss Bertin Marks, 221 Salmon street, 2659 words. Second orice, \$10, R. O. Bonabne, 432 Fourth street, 3620 words. Third prize, \$5, Miss Mabelle Dent, Brooklyn (East Portlant), Or., 2333 words were received, but among the number were words of three letters, obso ete words and other words not authorized. These deducted, made the number less than 2322. Competitors have the privilege of comparing their manuscripts with those mentioned above at Mellis & Co.'s office until March 31, 1857.

As Indictment Dated Sunday Holds.—

Co.'s office until March 31, 1857.

BOUBLY FINED. J. M. Beatty, arrested by policeman Henline for striking John Wallace and a lady named Cunningham, who accompanied a lady named Cunningham, who accompanied him, Sunday night, was tried in Justice Real-willer's court yesterday on two charges of assault and hettery, found guilty and sent to the county pair for tendays on such. Beatty was to have been tried in the police court. He somehow had a foolial idea in his head that he couldn't get justice in this court and asked for any as a bests.

RESIGNATION OF C. H. PERSCOTT. OL Saturday the 5th Inst. Mr. C. H. Prescott, ma larger of the Oregon Railway and Navigation company, tendered his resignation to Elijah Smith, the precident, by telegraph. Up to yester ay it had not been accepted, and the probability is that he will be requested to serve until after the annual election, which occurs in June. It is understood that hir. Prescott considered the matter well before sending in his reaignation, and that his action is final. He will serve the company only long enough to give them time to select his successor. His family will leave here about the end of this month, to remain East during the summer, but he will leave here about the end of this month, to remain East during the summer, but he will remain in Portland permanently and will not doubt engage in 10me enterprise which will add to the city's prosperity. The mercantile community will learn with regret that he will no longer be connected with the great railway of Oregon. He is a broadgauge man and no one is more alive to the interests of Portland than be. However, he will ind some other, field of usefulness here where his influence will be felt.

Released on his own Becognizance. Pertinent Matters. the Fat Stock Show.

STOLE THE FAMILY DOG.—A short time ago Fauline Mandens was diversed from her husband, Antone, and went to Seattle. Becently she ireturned, and going to the Caupon Gardens, where they formerly resided tagether, proceed-to make things lively for Antone, and concluded by taking away a large day, a member of the former family. Antone periously objected to feater the day.

The majority of the stockholders in the Grand Ronde Hydraulic Mining company are in Hast Portland. To-day J. Angel, superintendent, will ship to the mine the water pipe, hydraulic glant and undercurrent irons. These will be followed during the week by everything in the way of teels required, and about half a deven man, with their families, intend going to these mines. Mr. Angel will probably stort seat of the monitains within a week to superintend the workin contemp atton some ditching is necessary, but the hydraulic will be ready in about a month for washing gravel, formal flonder river must through the gravel beds owned by the company. Two tunnels, 50 feet each in length have been constructed, and the entire fiver rims through these tunnels. These give out in the first may through these tunnels. These give out in the piace in July, when it is expected the head office will be removed to East Portland.

head office will be removed to East Portland.

WILL MAKE EXAMINATION.

The city council instructed the city surveyor and street commissioner to examine the grade of Fourth street out in Holkaday's addition, and assertain how certain discrepandes can be remedied. If Holly the council to make the investigation his week when he will be able to make an intelligent report. The second bridge at the extreme borth end of the street is two feet helow the grade of the street, it is stated that the bridge is on the proper grade, while the street at that point is two feet above the established data of grados. So all along the street the grade is in some places too high and in others too low. However, the mistakes were generally in favor of the contractor.

WORL BECUR

Takes were generally in tayor of the contractor.

WORL BECLEY.

The weather has interfered with the progress of work on the terminal works at Albhan, but a large direct on less (above the progress of the transition of the terminal works at Albhan, but a large direct of men (about 100) has been mit to work. At the roundhouse yesterday the Goorlog was being put down and the rails placed in position. Bricklayers were engaged laying the brick for the checker wall. The wall has been raised about four rede. More men will module either heavy moduled to the progress of the smoke above the progress of the past quantities of material collected about the works.

overcoat.

Smithson is erecting a large two-story building on Russell street. Albina. The up-stairs will be used as a large hall and the lower part for stores. Mr. Jenings, will and family, came-down from Rugene City yesterday. They came to make their home in the stair, from Lansay about these weeks ago, but have concluded to return to their former home.

Prof. J.I. Rhodes, of Wilsburg, was down ves-tering. He is not teaching at present, the Wilsburg school having been suspended temporarly; E. Cole, of Willsburg, also was at the Fourth street

# THE LATE JOHN G. BAKER. The following remarks were made by Rev. T. H. Harderson, at the funeral of the late John G. Baker, the well known ploneer of Yambili conoty, who was buried at McMinville, March 6.

The purpose for which we are tagether is understood by all breeent. One of our old and well respected eithen based way and we now come to lay his body to rest and only the tribute of respect due to him as an old, an honored citizen of the community.

John G. Baker-we all knaw him as Unde John. respectively in as an old, as honored citizen of respectively.

John 6, Baker—we all kniw him as Uncle John 6, Baker—we all kniw him as Uncle John 7, 1818, and died in Medlinnville, Ur. Marchi 4, 1827, 1838, and died in Medlinnville, Ur. Marchi 4, 1827, 1838, and died in Medlinnville, Ur. Marchi 4, 1827, 1838, and died in Medlinnville, Ur. March 6, 1830, Early in life fighter Baker moved from Mentucky 50 Missouri, where he married the faithful wife wine survives lism. In 1833 he came with his family from Missouri to this country, crossing the plains with ox teams. In 1844 he settled in a donation claim just north of this country, which he owed at the time of the own with the provisional and state governments, which they wently indeed the hit the provisional and state governments, which shows comething of the eateen in which he was held by the people who lived here in that early day.

held by the people who lived here in that early day.

From these statements it will be seen that he was one of the very early settlers in this section of country. We are not yet fully prepared to correctly estimate the value of the service that he and others who came here in an early day rendered to corr whole country by opening up this territory, which was then inhabited almost exclusively by swagger, to settlement by stitzens of the states of our American republic. What they did in that early day, under the greatest disadvantages, wont iar to give this vast Northwestern territory to our lation. Their coming here was an event of international them to be comers and England and affected, is some extent, the subsequent career and destiny to lot.

both.

In trends this country to settlement by civilized propie, Pather Baker and others, who came here in a very carly day, were opening the way for all the splendid works which havofollowed and giring to civilization the opportunity to gain the allitering and conduring triumphs it has gained and is gaining among us and will gain among those who shall follow us forever. They were preparing the way for; and making possible, the schools of every grade that now so thick y dot the whole North fractice coast and the edecational work that has been done is now being done and will forever be done. We sometines grow impatient with our did not because they are not more progressive. But let we not forcer that, through structures and conce. We sometines grow impatient with our did not because they are not more progressive. But let we not forcer that, through structures and concerning the progress we criev, and that one of them, when they have grown old, the views, purposes and work that were intended fay younger and better equiped minds and hat is.

Faller Baker and others who braved the difficulties and dancers the most be endured and overcome to plant our civil taxtion and institutions here were organing the way for all the Christian work that has since been done and is now being done among us. The churches that have been called, the spiritual trumphs that have been only in the spiritual trumphs that have been of these institutions, but only the called the property of the property of the creation of men yet, to be, to the islands of the Facile, so that these who people those distant islands may share our this generation and other generations of men yet, to be, to the islands of the Facile, so that these who peo rening this country to settlement by civilized

our pieneers. These men—many of whom are al-ready dend, and others in ripe old are are waiting to be called home—have, it will be seen, not only done much to influence the people and institutions around them, but have done something to deter-mance the career and work of civilization upon-earth. h. Thered around the cold and slient form of one

who will scous at the generation as the way stand, is eternity.

Father fisher, around whose form we now stand, was a quiet and orderly effice, respected, so far as I know, by all who know him, and he was a nown and well known to all the old-efficies as and to many of the younger people and inter-comers in the him good.

### LIENS PROM HILLSBORG

Hillshone, March 14, 1887.

The simual staffon show for Washington county will be held at Hillsbore April 2, 1887. Arrangements have been made by which 75 or 160 horses will be in training on the Hillsbord track this year. he Graegers have bought ground and are going build a lodge room of their own here on Main

street.

The Hillsboro Creamerr company is now tetraing out a first class article of butter. The building and practinery are first-class in every particular. Class farmers are preparing to particular class and it will shortly be worked to its full gapacity.

THE MURKINUS GREGORIAN, WEDNESDAY, MARCH 16, 1887. OR. JOHN BULL'S

AN I ALL MALARIAL DISEASES.

The proprietor of this belebrated medicine instity claims for it a superiority over all remedies over effered to the bubble for the BAPE, CERTAIN, SPEEDY and PERMADERT cure of Ayue and Fever, or Childsand Fever, whether of chert or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the direct long standing. He refers to the outer work of the assertion that in no case whatever will it fail to cure if the direct long seven to the first had been sufficient for hours, and whole families have been cured by a single botte, with a perfect restoration of the general leaith. It is, however, prudent, and in every case more cortain to cure, if its was is continued in smaller dect for a week or two after the disease has been checked, more ospecially in difficult and long-standing cases. Usually this medicult will not require any aid to keep the bowels in good order. Should the patient, lowever, requires catharti, medicine, after having taken three or fun coses of the Tonic, a single door of the Tonic of the Malay PLLS
